

# WE NEED YOU

Unleash your leadership potential

Have you ever wondered what it would be like to impart your wisdom, knowledge, and skills onto a budding student nurse?

We are looking for superstar supervisors to join our [Student Nurse Placement Program](#) in South Australia.

With your help, we can make primary health care a diverse and rewarding career choice for nursing students around the country. But don't just take our word for it, here's what one of our supervisors had to say...

---

**“More nursing students must be given the chance to experience primary health care so that we can build a sustainable workforce. Clinical placements provide an opportunity to enhance and shape a student’s attitudes and learning experiences.”**

**– APNA Supervisor**

*Student nurse and supervisor on placement in primary health care.*

---

Here's the nitty gritty:

- Supervisors must be registered nurses or nurse practitioners with a minimum of 2 years nursing experience.
- Students must be supervised for 38 hours each week. This supervision role can be shared between the nursing staff at your workplace.
- Your workplace will be paid for each placement completed.
- Supervisors must be willing to participate fully in the program, including all documentation for the student and APNA.

If you're ready to increase your leadership skills and share your expertise, give the gift of mentorship to a nursing student today! It will be the gift that keeps giving as these students become Australia's future nursing workforce.

Simply email us at [placements@apna.asn.au](mailto:placements@apna.asn.au) or [book in for a 10-minute call](#) with a Placements team member to get the ball rolling.

We can't wait to have you on board!

Warm regards,  
APNA Placements team
